Portfolio: neha-gupta-7.github.io/portfolio

OBJECTIVE

Computer Engineering graduate who builds and ships mobile and web products with native Android, Flutter and Python, with a growing focus on AI and data science. Seeking a software development, AI/ML or data science role where I can turn data and Generative AI tools into clean, user-focused products and keep growing as an engineer.

PROJECTS

Pacewalk — Fitness & Wellness Tracking App (Native Android) Live on Google Play Store

Solo project, built with AI-assisted development | Native Android

- Built an Android app for fitness enthusiasts and health-conscious adults to track multi-activity workouts (walk, run, cycle) in one place; originally built in Flutter, then rebuilt as a fully native Android app.
- Tracks steps, distance, calories and pace in real time through a workout timer and a free-form Open Walk mode, using the pedometer, GPS and a background foreground service.
- Lets users manually log heart rate, blood pressure, body measurements and daily hydration, with progress charts, goals, achievements and reminder notifications.
- Ran a closed test with 12 testers on Google Play, debugged release issues from device logs, and published the app to production on the Google Play Store.

Food Court Web App

- Built a responsive food court ordering site with live cart updates, outlet-wise order management and a smooth flow from menu to checkout.

SKILLS

Programming	Python, SQL
Mobile & Web	Native Android, Flutter
Data & AI	Pandas, NumPy, Machine Learning (basics), Generative AI tools
Tools	Git, GitHub, Google Play Console

EDUCATION

B.E. Computer Engineering — Atharva College of Engineering, Mumbai Univ. May 2026

CGPI: 8.96

HSC (12th) — MKVV International Vidyalaya, Borivali (West) July 2022

79.80%

SSC (10th) — Holy Faith English School, Ambernath (East), Thane July 2020

85.40%

CERTIFICATIONS

Self-taught Python, web technologies and SQL through online courses; currently learning machine learning and data science.

INTERESTS & LANGUAGES

Languages	Hindi, English
Interests	Content writing, with sharp, clear writing and in-depth research into topics
