Portfolio: neha-gupta-7.github.io/portfolio

OBJECTIVE

Computer Engineering graduate who builds mobile and web apps with Flutter, React and Python. Looking for a software development role where I can ship clean, user-focused products and keep growing as an engineer.

PROJECTS

Pacewalk — Fitness & Wellness Tracking App (Flutter)

In Play Store review

Solo project, built with AI-assisted development | Flutter, Dart, Android

- Built an Android app for fitness enthusiasts and health-conscious adults to track multi-activity workouts (walk, run, cycle) in one place.
- Tracks steps, distance, calories and pace in real time through a workout timer and a free-form Open Walk mode, using the pedometer, GPS and a background foreground service.
- Lets users manually log heart rate, blood pressure, body measurements and daily hydration, with progress charts, goals, achievements and reminder notifications.
- Ran a closed test with 12 testers on Google Play, debugged release issues from device logs, and submitted the app for production review.

Food Court Web App

HTML, CSS, JavaScript

- Built a responsive food court ordering site with live cart updates, outlet-wise order management and a smooth flow from menu to checkout.

SKILLS

Languages	Python, Dart, JavaScript, SQL
Mobile & Web	Flutter, React.js, HTML, CSS
Data & AI	Pandas, NumPy, Machine Learning (basics), Generative AI tools
Tools	Git, GitHub, Google Play Console

EDUCATION

B.E. Computer Engineering — Atharva College of Engineering, Mumbai Univ. CGPI: 8.96	May 2026
HSC (12th) — MKVV International Vidyalaya, Borivali (West) 79.80%	July 2022
SSC (10th) — Holy Faith English School, Ambernath (East), Thane 85.40%	July 2020

CERTIFICATIONS

Self-taught Python, web technologies and SQL through online courses; currently learning machine learning and data science.
